

CT6 is part of the **Low Moisture Carpet Cleaning Program** and is the first offering from a joint effort from **Bonnet Pro Carpet Maintenance Technology** and the **Australian Carpet Cleaning Institute (ACCI)**, whose unique course has become the symbol of elite professionalism and as a result has found absolute support from industry icons such as DuPont, 3M, Wools of New Zealand and the industry's largest carpet manufacturers in Australia. Bonnet Pro has scouted for the best trainer in the world to teach its Carpet Encapsulation Course and as a result is flying in the Founder of the ACCI, Leo Powell to teach this course and future courses for our US market. It's a 19,000 thousand mile round trip, but we think your worth it!
